SELECTING YOUR SIZE:

If you want to know your size, take your measurements and compare them to the table.
Your size will be your highest measurement.

CHEST: Measure around the largest part of your bust. The tape should be flat.

WAIST: Measure around the waist. The tape should be flat.

HIP: Measure around the hip. The tape should be flat.

INSEAM: Measurement of a trouser leg that runs from the crotch down to the ankle.

For adults, in these size charts the inseam measure has not a significant change. As you know the height can fluctuate but most of the changes are in the waist and hips area.
